PURPOSE OF THE BILL

The purpose of H.R. 774 is to strengthen enforcement mechanisms to stop illegal, unreported, and unregulated fishing, and to amend the Tuna Conventions Act of 1950 to implement the Antigua Convention.

BACKGROUND AND NEED FOR LEGISLATION

Illegal, unreported and unregulated (IUU) fishing, sometimes referred to as “pirate fishing,” is a wide-range of fishing activities that fail to comply with national, regional, or global fisheries conservation and management requirements. These activities threaten sustainable fisheries worldwide, and the sale of illegally-caught fish undermines the legal fish markets. H.R. 774's general goal is to strengthen enforcement measures aimed at decreasing IUU fishing.

On January 12, 2011, the National Oceanic and Atmospheric Administration (NOAA) published a final rule¹ that defined IUU fishing as: “(1) fishing activities that violate conservation and management measures required under an international fishery management agreement to which the United States is a party, including catch limits or quotas, capacity restrictions, and bycatch reduction requirements; (2) overfishing of fish stocks shared by the United States; and (3) fishing activity that has an adverse impact on the seamounts, hydrothermal vents, and cold water corals located beyond national jurisdiction, for which there are no applicable conservation or management measures or in areas with no applicable international fishery management organization or agreement.”

By nature of being illegal and unreported, the economic cost of IUU fishing is difficult to quantify since these are clandestine activities. Some estimates suggest that IUU fishing activities results in economic losses between \$10–\$23.5 billion dollars worldwide annually.² These practices place legitimate fisherman at a disadvantage in the domestic and global markets by evading overhead costs and flooding the seafood market with illegally harvested fish products.

Although the United States has laws in effect to help combat illegal fishing, international cooperation is necessary to ensure that global enforcement and penalties are in place to close the world's ports to illegally harvested fish and to help certify that these products do not make it onto the global seafood market. The U.S. is a party to a number of regional fisheries management organizations

(RFMO) that are usually established by a treaty or other formal international agreement. These provide a mechanism through which nations work together towards the conservation, management, and development of fisheries. A number of these RFMO's have begun creating lists of vessels which are fishing illegally within the appropriate region. Without international enforcement, illegal fishermen are operating in an environment where the monetary reward of IUU fishing far outweighs the risk of being caught. H.R. 774's goal is to further international cooperation.

H.R. 774, as reported, amends and standardizes the implementing statutes for eight existing international fishery agreements to impose the sanctions of the High Seas Driftnet Fishing Moratorium Protection Act, while also applying civil penalties, criminal offenses, and civil forfeitures against persons who violate new enforcement provisions.³ Those agreements include: the Pacific Salmon Treaty Act of 1985; the Dolphin Protection Consumer Information Act; the Tuna Conventions Act of 1950; the North Pacific Anadromous Stocks Act of 1992; the Atlantic Tunas Convention Act of 1975; the Northwest Atlantic Fisheries Convention Act of 1995; the Western and Central Pacific Fisheries Convention Implementation Act; and the Antigua Convention Implementing Act of 2015.

Under Title I of the bill, the Secretary of Commerce is authorized to participate in and provide assistance to international efforts that address IUU fishing activities, bycatch concerns, fisheries monitoring, and other actions aimed at helping nations achieve sustainable fisheries.⁴ According to the Congressional Budget Office, Title I authorizes the appropriation of \$450,000 a year for NOAA to expand the scope of information considered for identifying IUU vessels and requires the agency to keep a list of countries with vessels engaged in IUU fishing in the preceding three years.⁵ The bill grants additional enforcement authority related to illegally harvested or imported fish products, while also allowing the Secretary to share that information with specified others who implement international fishing agreements. The bill requires the Secretary to notify the President and any nation whose vessel has been identified engaging in IUU fishing activities or practices within the past three years and authorizes the Secretary to take actions against nations who have failed to address or regulate the illegal activity.

Title II of the bill implements the Convention for the Strengthening of the Inter-American Tropical Tuna Commission established by the 1949 Convention between the United States and the Republic of Costa Rica. Also known as the "Antigua Convention," this international agreement is responsible for the management of tunas and other migratory species in the eastern Pacific Ocean. This provision amends the Tunas Conventions Act of 1950 to establish new procedures for appointing the Commissioners and Alternate Commissioners, and has provisions for compensation and expenses for these Commissioners. The Secretary of Commerce is authorized to promulgate regulations with respect to enforcement matters related to the Convention. Title II also amends the High Seas Driftnet Fishing Moratorium Protection Act to provide for pro-

hibited acts and enforcement of the agreement, and repeals the Eastern Pacific Tuna Licensing Act of 1984.

Title III implements the Port State Measures Agreement, which is an international treaty adopted by the United Nations in 2009 to prevent illegally caught fish from entering the world ports and global seafood market. The United States ratified this treaty in April 2014, but it will not take effect until it is ratified by 25 countries (the U.S. is the 11th party to ratify the Agreement).⁶ The Ports State Measures Agreement specifically establishes standards for dockside inspections and requires parties to restrict port entry and port services to foreign vessels known or suspected of having been involved in IUU fishing particularly those on a RFMO IUU fishing vessel list. The Agreement recognizes that all seafood must pass through a port to get to market and that nations can identify both vessels and nations suspected of conducting or condoning IUU fishing. It allows nations to use these inspections to prevent IUU fish from reaching market.

COMMITTEE ACTION

H.R. 774 was introduced on February 5, 2015, by Delegate Madeline Z. Bordallo (D–GU). The bill was referred to the Committee on Natural Resources, and within the Committee to the Subcommittee on Water, Power and Oceans. Additionally, it was referred to the Committee on Transportation and Infrastructure. On April 29, 2015, the Natural Resources Committee met to consider the bill. The Subcommittee on Water, Power and Oceans was discharged by unanimous consent. Delegate Bordallo offered an amendment (001); it was adopted by unanimous consent. No additional amendments were offered, and the bill as amended was ordered favorably reported to the House of Representatives by unanimous consent on April 30, 2015.

COMMITTEE OVERSIGHT FINDINGS AND RECOMMENDATIONS

Regarding clause 2(b)(1) of rule X and clause 3(c)(1) of rule XIII of the Rules of the House of Representatives, the Committee on Natural Resources’ oversight findings and recommendations are reflected in the body of this report.

COMPLIANCE WITH HOUSE RULE XIII

1. Cost of Legislation. Clause 3(d)(1) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison by the Committee of the costs which would be incurred in carrying out this bill. However, clause 3(d)(2)(B) of that rule provides that this requirement does not apply when the Committee has included in its report a timely submitted cost estimate of the bill prepared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act of 1974. Under clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 403 of the Congressional Budget Act of 1974, the Committee has received the following cost estimate for this bill from the Director of the Congressional Budget Office:

H.R. 774—Illegal, Unreported, and Unregulated Fishing Enforcement Act of 2015

H.R. 774 would provide the National Oceanic and Atmospheric Administration (NOAA) with additional tools to enforce fisheries laws and combat illegal, unreported, and unregulated (IUU) fishing. The bill would establish uniform enforcement policies and procedures under the many federal statutes that govern the regulation of commercial fishing. The bill also would allow NOAA to implement two international fishing agreements previously entered into by the United States.

Assuming appropriation of the authorized amounts, CBO estimates that implementing H.R. 774 would cost \$2 million over the 2016–2020 period. Because enacting the bill could increase revenues (from civil and criminal penalties) and associated direct spending, pay-as-you-go procedures apply. However, CBO estimates that such increases in penalties and spending would be less than \$500,000 annually and would offset each other in most years.

CBO has reviewed title I of H.R. 774 and determined that it contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA). Section 4 of UMRA excludes from the application of that act any legislative provisions that are necessary for the ratification or implementation of international treaty obligations. CBO has determined that Titles II and III fall within that exclusion because they would implement international fishing treaties.

Enforcement of fisheries laws

Title I would authorize the appropriation of \$450,000 a year for NOAA to expand the scope of information considered for identifying IUU vessels and require the agency to keep a list of countries with vessels engaged in IUU fishing in the preceding three years. Assuming appropriation of the authorized amounts, CBO estimates that carrying out those activities would cost about \$2 million over the 2016–2020 period.

Title I also would provide NOAA with greater authority to combat IUU fishing. While the bill would not explicitly mandate an increase in NOAA’s enforcement efforts, the enhanced enforcement authorities could result in additional costs if those authorities increased the number of violations adjudicated by the agency. In 2015, NOAA received appropriations totaling \$66 million to enforce more than 35 federal statutes. Based on information provided by the agency, CBO expects that any increase in enforcement costs under H.R. 774 associated with IUU fishing would not be significant in any year.

In addition, title I would make various amendments to portions of the High Seas Driftnet Fishing Moratorium Protection Act and the Magnuson-Stevens Fishery Conservation and Management Act. Based on information provided by NOAA, CBO expects that implementing those amendments would not affect the agency’s workload because the agency is conducting most of the newly required activities under current law. The authorization of appropriations to carry out the affected portions of those acts expired in 2013; however, the Congress has continued to appropriate funds to conduct activities under those laws. In 2015, the agency received appropriations totaling \$3 million to implement those provisions.

Finally, title I could increase civil and criminal penalties for violations of fisheries laws. Based on information provided by NOAA, CBO estimates that any increase in revenues from penalties would be less than \$500,000 a year and would be offset by similar increases in direct spending from the Crime Victims Fund (for criminal penalties) or by NOAA (for civil penalties) as authorized by existing law.

Implementation of the Antigua Convention

Title II would amend the Tuna Conventions Act of 1950 to implement the Antigua Convention and would establish guidelines for the selection, composition, and duties of certain bodies that represent the United States on the Inter-American Tropical Tuna Commission. Because those bodies currently exist and members of those bodies are not compensated by the federal government, CBO estimates that implementing title II would have no significant effect on the federal budget.

Implementation of the Agreement on Port State Measures

Title III would require NOAA to identify ports that can be used by foreign vessels, coordinate inspections of those vessels with the U.S. Coast Guard (USCG), deny port entry to vessels that have engaged in IUU fishing, and share information with foreign governments and other entities regarding the results of inspections and any actions taken if IUU fishing is discovered. Title III also would establish civil and criminal penalties for entities that violate provisions in the bill.

Based on information provided by NOAA and the USCG, CBO estimates that implementing title III would have no significant effect on the federal budget. The affected agencies already carry out the activities required under the bill. Enacting the legislation could increase revenues (from civil and criminal penalties) and associated direct spending; however, CBO estimates that such increases would be small and would offset each other in most years.

The CBO staff contact for this estimate is Jeff LaFave. The estimate was approved by H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.

2. Section 308(a) of Congressional Budget Act. As required by clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974, this bill does not contain any new budget authority, spending authority, credit authority, or an increase or decrease in revenues or tax expenditures. According to the Congressional Budget Office, implementation of the bill would cost \$2 million over the 2016–20 time period, subject to appropriation. The bill could increase revenues from additional penalties, but “increases in penalties and spending would be less than \$500,000 annually and would offset each other in most years.”

3. General Performance Goals and Objectives. As required by clause 3(c)(4) of rule XIII, the general performance goal or objective of this bill is to extend the authority of the Secretary of the Interior and the Secretary of Agriculture to carry out the Illegal, Unreported, and Unregulated Fishing Enforcement Act of 2015, and for other purposes.

EARMARK STATEMENT

This bill does not contain any Congressional earmarks, limited tax benefits, or limited tariff benefits as defined under clause 9(e), 9(f), and 9(g) of rule XXI of the Rules of the House of Representatives.

COMPLIANCE WITH PUBLIC LAW 104-4

This bill contains no unfunded mandates.

COMPLIANCE WITH H. RES. 5

Directed Rule Making. The Chairman does not believe that this bill directs any executive branch official to conduct any specific rule-making proceedings.

Duplication of Existing Programs. This bill does not establish or reauthorize a program of the federal government known to be duplicative of another program. Such program was not included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111-139 or identified in the most recent Catalog of Federal Domestic Assistance published pursuant to the Federal Program Information Act (Public Law 95-220, as amended by Public Law 98-169) as relating to other programs.

PREEMPTION OF STATE, LOCAL OR TRIBAL LAW

This bill is not intended to preempt any State, local or tribal law.

SEC. 607. BIENNIAL REPORT ON INTERNATIONAL COMPLIANCE.

The Secretary, in consultation with the Secretary of State, shall provide to Congress, by not later than 2 years after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, and every 2 years thereafter, a report that includes—

(1) the state of knowledge on the status of international living marine resources shared by the United States or subject to treaties or agreements to which the United States is a party, including a list of all such fish stocks classified as overfished, overexploited, depleted, endangered, or threatened with extinction by any international or other authority charged with management or conservation of living marine resources;

SEC. 608. ACTION TO STRENGTHEN INTERNATIONAL FISHERY MANAGEMENT ORGANIZATIONS.

(a) *IN GENERAL.*—The Secretary, in consultation with the Secretary of State, and in cooperation with relevant fishery management councils and any relevant advisory committees, shall take actions to improve the effectiveness of international fishery management organizations, or arrangements made pursuant to an international fishery agreement, in conserving and managing fish stocks under their jurisdiction. These actions shall include—

(1) urging international fishery management organizations to which the United States is a member—

(A) to incorporate multilateral market-related measures against member or nonmember governments whose vessels engage in illegal, unreported, or unregulated fishing;

(B) to seek adoption of lists that identify fishing vessels and vessel owners engaged in illegal, unreported, or unregulated fishing that can be shared among all members and other international fishery management organizations;

(C) to seek international adoption of a centralized vessel monitoring system in order to monitor and document capacity in fleets of all nations involved in fishing in area under an international fishery management organization's jurisdiction;

(D) to increase use of observers and technologies needed to monitor compliance with conservation and management measures established by the organization, including vessel monitoring systems and automatic identification systems;

(E) to seek adoption of stronger port state controls in all nations, particularly those nations in whose ports vessels engaged in illegal, unreported, or unregulated fishing land or transship fish; and

(F) to adopt shark conservation measures, including measures to prohibit removal of any of the fins of a shark (including the tail) and discarding the carcass of the shark at sea;

(2) urging international fishery management organizations to which the United States is a member, as well as all members of those organizations, to adopt and expand the use of market related measures to combat illegal, unreported, or unregulated fishing, including—

(B) import restrictions or other market-based measures to prevent the trade or importation of fish caught by vessels identified multilaterally as engaging in illegal, unreported, or unregulated fishing; and

(C) catch documentation and certification schemes to improve tracking and identification of catch of vessels engaged in illegal, unreported, or unregulated fishing, including advance transmission of catch documents to ports of entry;

(3) seeking to enter into international agreements that require measures for the conservation of sharks, including measures to prohibit removal of any of the fins of a shark (including the tail) and discarding the carcass of the shark at sea, that are comparable to those of the United States, taking into account different conditions; and

(4) urging other nations at bilateral, regional, and international levels, including the Convention on International Trade in Endangered Species of Fauna and Flora and the World Trade Organization to take all steps necessary, consistent with international law, to adopt measures and policies that will prevent fish or other living marine resources harvested by vessels engaged in illegal, unreported, or unregulated fishing from being traded or imported into their nation or territories.

(b) *DISCLOSURE OF INFORMATION.*—

(1) *IN GENERAL.*—*The Secretary, subject to the data confidentiality provisions in section 402 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1881a) except as provided in paragraph (2), may disclose, as necessary and appropriate, information, including information collected under joint authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) and the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 71 et seq.), the Western and Central Pacific Fisheries Convention Implementation Act (16 U.S.C. 6901 et seq.), any other statute implementing an international fishery agreement, to any other Federal or State government agency, the Food and Agriculture Organization of the United Nations, or the secretariat or equivalent of an international fishery management organization or arrangement made pursuant to an international fishery agreement, if such government, organization, or arrangement, respectively, has policies and procedures to protect such information from unintended or unauthorized disclosure.*

(2) *EXCEPTIONS.*—*The data confidentiality provisions in section 402 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1881a) shall not apply with respect to this Act—*

(A) *for obligations of the United States to share information under a regional fisheries management organization (as that term is defined by the United Nation's Food and Agriculture Organization Agreement on Port State Meas-*

ures to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing) of which the United States is a member; or

(B) to any information collected by the Secretary regarding foreign vessels.

(c) IUU VESSEL LISTS.—The Secretary may—

(1) develop, maintain, and make public a list of vessels and vessel owners engaged in illegal, unreported, or unregulated fishing or fishing-related activities in support of illegal, unreported, or unregulated fishing, including vessels or vessel owners identified by an international fishery management organization or arrangement made pursuant to an international fishery agreement, that—

(A) the United States is party to; or

(B) the United States is not party to, but whose procedures and criteria in developing and maintaining a list of such vessels and vessel owners are substantially similar to such procedures and criteria adopted pursuant to an international fishery agreement to which the United States is a party; and

(2) take appropriate action against listed vessels and vessel owners, including action against fish, fish parts, or fish products from such vessels, in accordance with applicable United States law and consistent with applicable international law, including principles, rights, and obligations established in applicable international fishery management agreements and trade agreements.

(d) REGULATIONS.—The Secretary may promulgate regulations to implement this section.

SEC. 609. ILLEGAL, UNREPORTED, OR UNREGULATED FISHING.

(a) IDENTIFICATION.—

(1) IDENTIFICATION FOR ACTIONS OF FISHING VESSELS.—The Secretary shall, based on a cumulative compilation and analysis of data collected and provided by international fishery management organizations and other nations and organizations, identify, and list in the report under section 607, a nation if fishing vessels of that nation are engaged, or have been engaged at any point during the preceding [2 years] 3 years, in illegal, unreported, or unregulated fishing—

[(1)] (A) that undermines the effectiveness of measures required by an international fishery management organization, taking into account whether the relevant international fishery management organization has failed to implement effective measures to end the illegal, unreported, or unregulated fishing activity by [vessels of] that nation or the nation is not a party to, or does not maintain cooperating status with, such organization; or

[(2)] (B) where no international fishery management organization exists with a mandate to regulate the fishing activity in question.

(2) IDENTIFICATION FOR ACTIONS OF NATION.—Taking into account the factors described under section 609(a)(1), the Secretary shall also identify, and list in such report, a nation—

(A) if it is violating, or has violated at any point during the preceding three years, conservation and management

measures required under an international fishery management agreement to which the United States is a party and the violations undermine the effectiveness of such measures; or

(B) if it is failing, or has failed in the preceding 3-year period, to effectively address or regulate illegal, unreported, or unregulated fishing in areas described under paragraph (1)(B).

(3) *APPLICATION TO OTHER ENTITIES.*—Where the provisions of this Act are applicable to nations, they shall also be applicable, as appropriate, to other entities that have competency to enter into international fishery management agreements.

[(b) *NOTIFICATION.*—An identification under subsection (a) or section 610(a) is deemed to be an identification under section 101(b)(1)(A) of the High Seas Driftnet Fisheries Enforcement Act(16 U.S.C. 1826a(b)(1)(A)), and the Secretary shall notify the President and that nation of such identification.]

(b) NOTIFICATION.—The Secretary shall notify the President and that nation of such an identification.

(c) *CONSULTATION.*—No later than 60 days after submitting a report to Congress under section 607, the Secretary, acting through the Secretary of State, shall—

(1) notify nations listed in the report of the requirements of this section;

(2) initiate consultations for the purpose of encouraging such nations to take the appropriate corrective action with respect to the offending activities of their fishing vessels identified in the report; and

(3) notify any relevant international fishery management organization of the actions taken by the United States under this section.

(d) *IUU CERTIFICATION PROCEDURE.*—

(1) *CERTIFICATION.*—The Secretary shall establish a procedure, consistent with the provisions of subchapter II of chapter 5 of title 5, United States Code, for determining if a nation identified under subsection (a) and listed in the report under section 607 has taken appropriate corrective action with respect to the offending activities [of its fishing vessels] identified in the report under section 607. The certification procedure shall provide for notice and an opportunity for comment by any such nation. The Secretary shall determine, on the basis of the procedure, and certify to the Congress no later than 90 days after the date on which the Secretary promulgates a final rule containing the procedure, and biennially thereafter in the report under section 607—

(A) whether the government of each nation identified under subsection (a) has provided documentary evidence that it has taken corrective action with respect to the offending activities [of its fishing vessels] identified in the report; or

(B) whether the relevant international fishery management organization has implemented measures that are effective in ending the illegal, unreported, or unregulated fishing activity by vessels of that nation.

(2) ALTERNATIVE PROCEDURE.—The Secretary may establish a procedure **for certification** *to authorize*, on a shipment-by-shipment, shipper-by-shipper, or other basis *the importation* of fish or fish products from a vessel of a **harvesting** nation **not certified under paragraph (1)** *issued a negative certification under paragraph (1)* if the Secretary determines that—

(A) the vessel has not engaged in illegal, unreported, or unregulated fishing under an international fishery management agreement to which the United States is a party; or

(B) the vessel is not identified by an international fishery management organization as participating in illegal, unreported, or unregulated fishing activities.

(3) EFFECT OF CERTIFICATION.—

(A) IN GENERAL.—The provisions of section 101(a) and section 101(b)(3) and (4) of this Act (16 U.S.C. 1826a(a), (b)(3), and (b)(4))—

(i) shall apply to any nation identified under subsection(a) **that has not been certified by the Secretary under this subsection, or** for which the Secretary has issued a negative certification under this subsection; but

(ii) shall not apply to any nation identified under subsection (a) for which the Secretary has issued a positive certification under this subsection.

(B) EXCEPTIONS.—Subparagraph (A)(i) does not apply—

(i) to the extent that such provisions would apply to sport fishing equipment or to fish or fish products not managed under the applicable international fishery agreement; or

(ii) if there is no applicable international fishery agreement, to the extent that such provisions would apply to fish or fish products caught by vessels not engaged in illegal, unreported, or unregulated fishing.

(e) ILLEGAL, UNREPORTED, OR UNREGULATED FISHING DEFINED.—

(1) IN GENERAL.—In this Act the term ‘illegal, unreported, or unregulated fishing’ has the meaning established under paragraph (2).

(2) SECRETARY TO DEFINE TERM WITHIN LEGISLATIVE GUIDELINES.—Within 3 months after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, the Secretary shall publish a definition of the term ‘illegal, unreported, or unregulated fishing’ for purposes of this Act.

(3) GUIDELINES.—The Secretary shall include in the definition, at a minimum—

(A) fishing activities that violate conservation and management measures required under an international fishery management agreement to which the United States is a party, including catch limits or quotas, capacity restrictions, bycatch reduction requirements, and shark conservation measures;

(B) overfishing of fish stocks shared by the United States, for which there are no applicable international conservation or management measures or in areas with no ap-

plicable international fishery management organization or agreement, that has adverse impacts on such stocks; and
 (C) fishing activity that has an adverse impact on seamounts, hydrothermal vents, and cold water corals located beyond national jurisdiction, for which there are no applicable conservation or management measures or in areas with no applicable international fishery management organization or agreement.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for fiscal years 2007 through 2013 such sums as are necessary to carry out this section.

SEC. 610. EQUIVALENT CONSERVATION MEASURES.

(a) IDENTIFICATION.—The Secretary shall identify, and list in the report under section 607—

(1) a nation if—

(A) fishing vessels of that nation are engaged, or have been engaged during the preceding [calendar year] 3 years in fishing activities or [practices;] *practices*—

(i) in waters beyond any national jurisdiction that result in bycatch of a protected living marine resource; or

(ii) beyond the exclusive economic zone of the United States that result in bycatch of a protected living marine resource shared by the United States;

(B) the relevant international organization for the conservation and protection of such resources or the relevant international or regional fishery organization has failed to implement effective measures to end or reduce such bycatch, or the nation is not a party to, or does not maintain cooperating status with, such organization; and

(C) the nation has not adopted a regulatory program governing such fishing practices designed to end or reduce such bycatch that is comparable to that of the United States, taking into account different conditions.

(2) a nation if—

(A) fishing vessels of that nation are engaged, or have been engaged during the preceding calendar year, in fishing activities or practices in waters beyond any national jurisdiction that target or incidentally catch sharks; and

(B) the nation has not adopted a regulatory program to provide for the conservation of sharks, including measures to prohibit removal of any of the fins of a shark (including the tail) and discarding the carcass of the shark at sea, that is comparable to that of the United States, taking into account different conditions.

(b) CONSULTATION AND NEGOTIATION.—The Secretary, acting through the Secretary of State, shall—

[(1) notify, as soon as possible, other nations whose vessels engage in fishing activities or practices described in subsection (a), about the provisions of this section and this Act;]

(1) notify, as soon as possible, the President and nations that have been identified under subsection (a), and also notify other nations whose vessels engage in fishing activities or practices described in subsection (a), about the provisions of this section and this Act;

(2) initiate discussions as soon as possible with all foreign governments which are engaged in, or which have persons or companies engaged in, fishing activities or practices described in subsection (a), for the purpose of entering into bilateral and multilateral treaties with such countries to protect such species;

(3) seek agreements calling for international restrictions on fishing activities or practices described in subsection (a) through the United Nations, the Food and Agriculture Organization's Committee on Fisheries, and appropriate international fishery management bodies; and

(4) initiate the amendment of any existing international treaty for the protection and conservation of such species to which the United States is a party in order to make such treaty consistent with the purposes and policies of this section.

(c) CONSERVATION CERTIFICATION PROCEDURE.—

(1) DETERMINATION.—The Secretary shall establish a procedure consistent with the provisions of subchapter II of chapter 5 of title 5, United States Code, for determining whether the government of a harvesting nation identified under subsection (a) and listed in the report under section 607—

(A) has provided documentary evidence of the adoption of a regulatory program governing the conservation of the protected living marine resource that is comparable to that of the United States, taking into account different conditions, and which, in the case of pelagic long line fishing, includes mandatory use of circle hooks, careful handling and release equipment, and training and observer programs; and

(B) has established a management plan containing requirements that will assist in gathering species-specific data to support international stock assessments and conservation enforcement efforts for protected living marine resources.

(E) when the Secretary has obtained written authorization from the person submitting such information to release such information to persons for reasons not otherwise provided for in this subsection, and such release does not violate other requirements of this Act.

(2) USE OF INFORMATION.—The Secretary shall, by regulation, prescribe such procedures as may be necessary to preserve the confidentiality of information submitted in compliance with any requirement or regulation under this Act, except that the Secretary may release or make public any such information in any aggregate or summary form that does not directly or indirectly disclose the identity or business of any person. Nothing in this subsection shall be interpreted or construed to prevent the use for conservation and management purposes by the Secretary of any information submitted in compliance with any requirement or regulation under this Act.

ADMINISTRATION

SEC. 6. (a) The Secretary is authorized and directed to administer and enforce all of the provisions of the Convention, this Act, and regulations issued pursuant thereto, except to the extent otherwise provided for in this Act. In carrying out such functions the Secretary is authorized and directed to adopt such regulations as may be necessary to carry out the purposes and objectives of the Convention and this Act, and with the concurrence of the Secretary of State, he may cooperate with the duly authorized officials of the government of any party to the Convention. In addition, the Secretary may utilize, with the concurrence of the Secretary of the department in which the Coast Guard is operating insofar as such utilization involves enforcement at sea, with or without reimbursement and by agreement with any other Federal department or agency, or with any agency of any State, the personnel, services, and facilities of that agency for enforcement purposes with respect to any vessel in the fisheries zone, or wherever found, with respect to any vessel documented under the laws of the United States, and any vessel numbered or otherwise licensed under the laws of any State. When so utilized, such personnel of the States of the United States are authorized to function as Federal law enforcement agents for these purposes, but they shall not be held and consid-

ered as employees of the United States for the purposes of any laws administered by the Civil Service Commission.

(b) Enforcement activities at sea under the provisions of this Act for fishing vessels subject to the jurisdiction of the United States shall be primarily the responsibility of the Secretary of the department in which the Coast Guard is operating, in cooperation with the Secretary and the United States Customs Service. The Secretary after consultation with the Secretary of the department in which the Coast Guard is operating, shall adopt such regulations as may be necessary to provide for procedures and methods of enforcement pursuant to article IX of the Convention.

(c)(1)(A) Upon favorable action by the Secretary of State under section 5(a) of this Act on any recommendation of the Commission made pursuant to article VIII of the Convention, the Secretary shall promulgate, pursuant to this subsection, such regulations as may be necessary and appropriate to carry out such recommendation.

(B) Not later than June 30, 1991, the Secretary shall promulgate any additional regulations necessary to ensure that the United States is in full compliance with all recommendations made by the Commission that have been accepted by the United States and with other agreements under the Convention between the United States and any nation which is a party to the Convention.

(C) Regulations promulgated under this paragraph shall, to the extent practicable, be consistent with fishery management plans prepared and implemented under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

(2) (A) To promulgate regulations referred to in paragraph (1) of this subsection, the Secretary shall publish in the Federal Register a general notice of proposed rulemaking and shall afford interested persons an opportunity to participate in the rulemaking through **[(A)]** (i) submission of written data, views, or arguments, and **[(B)]** (ii) oral presentation at a public hearing. Such regulations shall be published in the Federal Register and shall be accompanied by a statement of the considerations involved in the issuance of the regulations, and by a statement, based on inquiries and investigations, assessing the nature and effectiveness of the measures for the implementation of the Commission's recommendations which are being or will be carried out by countries whose vessels engage in fishing the species subject to such recommendations within the waters to which the Convention applies. After publication in the Federal Register, such regulations shall be applicable to all vessels and persons subject to the jurisdiction of the United States on such date as the Secretary shall prescribe. The Secretary shall suspend at any time the application of any such regulation when, after consultation with the Secretary of State and the United States Commissioners, he determines that fishing operations in the Convention area of a contracting party for whom the regulations are effective are such as to constitute a serious threat to the achievement of the Commission's recommendations.

(B) Notwithstanding the requirements of subparagraph (A) and subsections (b) and (c) of section 553 of title 5, United States Code, the Secretary may issue final regulations to implement Commission recommendations referred to in paragraph (1) concerning trade restrictive measures against nations or fishing entities.

(3) The regulations required to be promulgated under paragraph (1) of this subsection may—

(A) select for regulation one or more of the species covered by the Convention;

(B) divide the Convention waters into areas;

(C) establish one or more open or closed seasons as to each such area;

(D) limit the size of the fish and quantity of the catch which may be taken from each area within any season during which fishing is allowed;

(E) limit or prohibit the incidental catch of a regulated species which may be retained, taken, possessed, or landed by vessels or persons fishing for other species of fish;

(F) require records of operations to be kept by any master or other person in charge of any fishing vessel;

(G) require such clearance certificates for vessels as may be necessary to carry out the purposes of the Convention and this Act;

(H) require proof satisfactory to the Secretary that any fish subject to regulation pursuant to a recommendation of the Commission offered for entry into the United States has not been taken or retained contrary to the recommendations of the Commission made pursuant to article VIII of the Convention which have been adopted as regulations pursuant to this section;

(I) require any commercial or recreational fisherman to obtain a permit from the Secretary and report the quantity of the catch of a regulated species;

(J) require that observers be carried aboard fishing vessels for the purpose of providing statistically reliable scientific data; and

(K) impose such other requirements and provide for such other measures as the Secretary may determine necessary to implement any recommendation of the Convention or to obtain scientific data necessary to accomplish the purpose of the Convention;

except that no regulation promulgated under this section may have the effect of increasing or decreasing any allocation or quota of fish or fishing mortality level to the United States agreed to pursuant to a recommendation of the Commission.

(4) Upon the promulgation of regulations provided for in paragraph (3) of this subsection, the Secretary shall promulgate, with the concurrence of the Secretary of State and pursuant to the procedures prescribed in paragraph (2) of this subsection, additional regulations which shall become effective simultaneously with the application of the regulations provided for in paragraph (3) of this subsection, which prohibit—

(A) the entry into the United States of fish in any form of those species which are subject to regulation pursuant to a recommendation of the Commission and which were taken from the Convention area in such manner or in such circumstances as would tend to diminish the effectiveness of the conservation recommendations of the Commission; and

(B) the entry into the United States, from any country when the vessels of such country are being used in the conduct of

fishing operations in the Convention area in such manner or in such circumstances as would tend to diminish the effectiveness of the conservation recommendations of the Commission, of fish in any form of those species which are subject to regulation pursuant to a recommendation of the Commission and which were taken from the Convention area.

(5) In the case of repeated and flagrant fishing operations in the Convention area by the vessels of any country which seriously threaten the achievement of the objectives of the Commission's recommendations, the Secretary with the concurrence of the Secretary of State, may by regulations promulgated pursuant to paragraph (2) of this subsection prohibit the entry in any form from such country of other species covered by the Convention as may be under investigation by the Commission and which were taken in the Convention area. Any such prohibition shall continue until the Secretary is satisfied that the condition warranting the prohibition no longer exists, except that all fish in any form of the species under regulation which were previously prohibited from entry shall continue to be prohibited from entry.

(6) IDENTIFICATION AND NOTIFICATION.—

(A) Not later than July 1, 1996, and annually thereafter, the Secretary, in consultation with the Secretary of State, the Commissioners, and the advisory committee, shall—

(i) identify those nations whose fishing vessels are fishing, or have fished during the preceding calendar year, within the convention area in a manner or under circumstances that diminish the effectiveness of a conservation recommendation;

(ii) notify the President and the nation so identified, including an explanation of the reasons therefor; and

(iii) publish a list of those Nations identified under clause (i).

(B) In identifying those Nations, the Secretary shall consider, based on the best available information, whether those Nations have measures in place for reporting, monitoring, and enforcement, and whether those measures diminish the effectiveness of any conservation recommendation.

(7) CONSULTATION.—Not later than 30 days after a Nation is notified under paragraph (6), the President may enter into consultations with the Government of that Nation for the purpose of obtaining an agreement that will—

(A) effect the immediate termination and prevent the resumption of any fishing operation by vessels of that Nation within the Convention area which is conducted in a manner or under circumstances that diminish the effectiveness of the conservation recommendation;

(B) when practicable, require actions by that Nation, or vessels of that Nation, to mitigate the negative impacts of fishing operations on the effectiveness of the conservation recommendation involved, including but not limited to, the imposition of subsequent-year deductions for quota overages; and

(C) result in the establishment, if necessary, by such Nation of reporting, monitoring, and enforcement measures

that are adequate to ensure the effectiveness of conservation recommendations.

(d)(1) It is the sense of the Congress that the Secretary, in consultation with the Secretary of State, should seek support for a recommendation by the Commission to ban large-scale driftnet fishing (as that term is defined in section 3(16) of the Magnuson-Stevens Fishery Conservation and Management Act) in the Convention area.

(2) The Secretary, in consultation with the Secretary of State, shall request the Commission to adopt recommendations necessary for the conservation and management of Atlantic swordfish. In making the request, the Secretary shall seek the establishment of an international minimum harvest size and a reduction in harvest levels to the extent necessary to conserve the stock. Until the Commission adopts all the conservation and management measures requested by the Secretary, the Secretary, within 3 months after each annual meeting of the Commission, shall notify Congress as to the nature and results of his request. These notifications shall identify those nations not acting to conserve and manage Atlantic swordfish, and recommend measures which could be taken to achieve effective international conservation and management of the stock.

VIOLATIONS; FINES AND FORFEITURES; APPLICATION OF RELATED LAWS

SEC. 7. (a) It shall be unlawful—

(1) for any person in charge of a fishing vessel or any fishing vessel subject to the jurisdiction of the United States to engage in fishing in violation of any regulation adopted pursuant to section 6 of this Act; or

(2) for any person subject to the jurisdiction of the United States to ship, transport, purchase, sell, offer for sale, import, export, or have in custody, possession, or control any fish which he knows, or should have known, were taken or retained contrary to the recommendations of the Commission made pursuant to article VIII of the Convention and adopted as regulations pursuant to section 6 of this Act, without regard to the citizenship of the person or vessel which took the fish.

(b) It shall be unlawful for the master or any person in charge of any fishing vessel subject to the jurisdiction of the United States to fail to make, keep, or furnish any catch returns, statistical records, or other reports as are required by regulations adopted pursuant to this Act to be made, kept, or furnished by such master or person.

(c) It shall be unlawful for the master or any person in charge of any fishing vessel subject to the jurisdiction of the United States to refuse to permit any person authorized to enforce the provisions of this Act and any regulations adopted pursuant thereto, to board such vessel and inspect its catch, equipment, books, documents, records, or other articles or question the persons onboard in accordance with the provisions of this Act, or the Convention, as the case may be, or to obstruct such officials in the execution of such duties.

(d) It shall be unlawful for any person to import, in violation of any regulation adopted pursuant to section 6(c) or (d) of this Act, from any country, any fish in any form of those species subject to regulation pursuant to a recommendation of the Commission, or

any fish in any form not under regulation but under investigation by the Commission, during the period such fish have been denied entry in accordance with the provisions of section 6(c) or (d) of this Act. In the case of any fish as described in this subsection offered for entry in the United States, the Secretary shall require proof satisfactory to him that such fish is not ineligible for such entry under the terms of section 6(c) or (d) of this Act.

[(e) The civil penalty and permit sanctions of section 308 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1858) are hereby made applicable to violations of this section as if they were violations of section 307 of that Act.

[(g)] (e) All provisions of law relating to the seizure, judicial forfeiture, and condemnation of a cargo for violation of the customs laws, the disposition of such cargo or the proceeds from the sale thereof, and the remission or mitigation of such forfeitures shall apply to seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this Act, insofar as such provisions of law are applicable and not inconsistent with the provisions of this Act.

ENFORCEMENT

SEC. 8. [(a) Any person authorized in accordance with the provisions of this Act to enforce the provisions of this Act and the regulations issued thereunder may—

[(1) with or without a warrant, board any vessel subject to the jurisdiction of the United States and inspect such vessel and its catch and, if as a result of such inspection, he has reasonable cause to believe that such vessel or any person on board is engaging in operations in violation of this Act or any regulations issued thereunder, he may, with or without a warrant or other process, arrest such person;

[(2) arrest, with or without a warrant, any person who violates the provisions of this Act or any regulation issued thereunder in his presence or view;

HIGH SEAS FISHING COMPLIANCE ACT OF 1995

TITLE I—HIGH SEAS FISHING COMPLIANCE

* * * * *

SEC. 104. PERMITTING.

(a) IN GENERAL.—No high seas fishing vessel shall engage in harvesting operations on the high seas unless the vessel has on board a valid permit issued under this section.

(b) ELIGIBILITY.—

(1) Any vessel of the United States is eligible to receive a permit under this section, unless the vessel was previously authorized to be used for fishing on the high seas by a foreign nation, and

(A) the foreign nation suspended such authorization because the vessel undermined the effectiveness of international conservation and management measures, and the suspension has not expired; or

(B) the foreign nation, within the last three years preceding application for a permit under this section, withdrew such authorization because the vessel undermined the effectiveness of international conservation and management measures.

(2) The restriction in paragraph (1) does not apply if ownership of the vessel has changed since the vessel undermined the effectiveness of international conservation and management measures, and the new owner has provided sufficient evidence to the Secretary demonstrating that the previous owner or operator has no further legal, beneficial or financial interest in, or control of, the vessel.

(3) The restriction in paragraph (1) does not apply if the Secretary makes a determination that issuing a permit would not subvert the purposes of the Agreement.

(4) The Secretary may not issue a permit to a vessel unless the Secretary is satisfied that the United States will be able to exercise effectively its responsibilities under the Agreement with respect to that vessel.

(c) APPLICATION.—

(1) The owner or operator of a high seas fishing vessel may apply for a permit under this section by completing an application form prescribed by the Secretary.

(2) The application form shall contain—

(A) the vessel's name, previous names (if known), official numbers, and port of record;

(B) the vessel's previous flags (if any);

(C) the vessel's International Radio Call Sign (if any);

(D) the names and addresses of the vessel's owners and operators;

(E) where and when the vessel was built;

(F) the type of vessel;

(G) the vessel's length; and

(H) any other information the Secretary requires for the purposes of implementing the Agreement.

(d) CONDITIONS.—The Secretary shall establish such conditions and restrictions on each permit issued under this section as are necessary and appropriate to carry out the obligations of the United States under the Agreement, including but not limited to the following:

(1) The vessel shall be marked in accordance with the FAO Standard Specifications for the Marking and Identification of Fishing Vessels, or with regulations issued under section 305 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1855); and

(2) The permit holder shall report such information as the Secretary by regulation requires, including area of fishing operations and catch statistics. The Secretary shall promulgate regulations concerning conditions under which information submitted under this paragraph may be released.

(e) FEES.—

(1) The Secretary shall by regulation establish the level of fees to be charged for permits issued under this section. The amount of any fee charged for a permit issued under this section shall not exceed the administrative costs incurred in issuing such permits. The permitting fee may be in addition to any fee required under any regional permitting regime applicable to high seas fishing vessels.

(2) The fees authorized by paragraph (1) shall be collected and credited to the Operations, Research and Facilities account of the National Oceanic and Atmospheric Administration. Fees collected under this subsection shall be available for the necessary expenses of the National Oceanic and Atmospheric Administration in implementing this Act, and shall remain available until expended.

[(f) DURATION.—A permit issued under this section is valid for 5 years. A permit issued under this section is void in the event the vessel is no longer eligible for United States documentation, such documentation is revoked or denied, or the vessel is deleted from such documentation.]

(f) VALIDITY.—*A permit issued under this section for a vessel is void if—*

(1) any other permit or authorization required for the vessel to fish is expired, revoked, or suspended; or

(2) the vessel is no longer documented under the laws of the United States or eligible for such documentation.

DOLPHIN PROTECTION CONSUMER INFORMATION ACT

* * * * *

DOLPHIN PROTECTION

SEC. 901. (a) **SHORT TITLE.**—This section may be cited as the “Dolphin Protection Consumer Information Act”.

(b) **FINDINGS.**—The Congress finds that—

(1) dolphins and other marine mammals are frequently killed in the course of tuna fishing operations in the eastern tropical Pacific Ocean and high seas driftnet fishing in other parts of the world;

(2) it is the policy of the United States to support a worldwide ban on high seas driftnet fishing, in part because of the harmful effects that such driftnets have on marine mammals, including dolphins; and

(3) consumers would like to know if the tuna they purchase is falsely labeled as to the effect of the harvesting of the tuna on dolphins.

(c) **DEFINITIONS.**—For purposes of this section—

(1) the terms “driftnet” and “driftnet fishing” have the meanings given those terms in section 4003 of the Driftnet Impact Monitoring, Assessment, and Control Act of 1987 (16 U.S.C. 1822 note);

(2) the term “eastern tropical Pacific Ocean” means the area of the Pacific Ocean bounded by 40 degrees north latitude, 40 degrees south latitude, 160 degrees west longitude, and the western coastlines of North, Central, and South America;

(3) the term “label” means a display of written, printed, or graphic matter on or affixed to the immediate container of any article;

(4) the term “Secretary” means the Secretary of Commerce; and

(5) the term “tuna product” means a food item which contains tuna and which has been processed for retail sale, except perishable sandwiches, salads, or other products with a shelf life of less than 3 days.

(d) **LABELING STANDARD.**—

(1) It is a violation of section 5 of the Federal Trade Commission Act (15 U.S.C. 45) for any producer, importer, exporter, distributor, or seller of any tuna product that is exported from or offered for sale in the United States to include on the label of that product the term “dolphin safe” or any other term or symbol that falsely claims or suggests that the tuna contained in the product were harvested using a method of fishing that is not harmful to dolphins if the product contains tuna harvested—

(A) on the high seas by a vessel engaged in driftnet fishing;

(B) outside the eastern tropical Pacific Ocean by a vessel using purse seine nets—

(i) in a fishery in which the Secretary has determined that a regular and significant association occurs between dolphins and tuna (similar to the association between dolphins and tuna in the eastern tropical Pacific Ocean), unless such product is accompanied by a written statement, executed by the captain of the vessel and an observer participating in a national or international program acceptable to the Secretary, certifying that no purse seine net was intentionally deployed on or used to encircle dolphins during the particular voyage on which the tuna were caught and no dolphins were killed or seriously injured in the sets in which the tuna were caught; or

(ii) in any other fishery (other than a fishery described in subparagraph (D)) unless the product is accompanied by a written statement executed by the captain of the vessel certifying that no purse seine net was intentionally deployed on or used to encircle dolphins during the particular voyage on which the tuna was harvested;

(C) in the eastern tropical Pacific Ocean by a vessel using a purse seine net unless the tuna meet the requirements for being considered dolphin safe under paragraph (2); or

(D) by a vessel in a fishery other than one described in subparagraph (A), (B), or (C) that is identified by the Secretary as having a regular and significant mortality or serious injury of dolphins, unless such product is accompanied by a written statement executed by the captain of the vessel and an observer participating in a national or international program acceptable to the Secretary that no dolphins were killed or seriously injured in the sets or other gear deployments in which the tuna were caught, provided that the Secretary determines that such an observer statement is necessary.

(2) For purposes of paragraph (1)(C), a tuna product that contains tuna harvested in the eastern tropical Pacific Ocean by a vessel using purse seine nets is dolphin safe if—

(A) the vessel is of a type and size that the Secretary has determined, consistent with the International Dolphin Conservation Program, is not capable of deploying its purse seine nets on or to encircle dolphins; or

(B)(i) the product is accompanied by a written statement executed by the captain providing the certification required under subsection (h);

(ii) the product is accompanied by a written statement executed by—

(I) the Secretary or the Secretary's designee;

(II) a representative of the Inter-American Tropical Tuna Commission; or

(III) an authorized representative of a participating nation whose national program meets the require-

ments of the International Dolphin Conservation Program,

which states that there was an observer approved by the International Dolphin Conservation Program on board the vessel during the entire trip and that such observer provided the certification required under subsection (h); and

(iii) the statements referred to in clauses (i) and (ii) are endorsed in writing by each exporter, importer, and processor of the product; and

(C) the written statements and endorsements referred to in subparagraph (B) comply with regulations promulgated by the Secretary which provide for the verification of tuna products as dolphin safe.

(3)(A) The Secretary of Commerce shall develop an official mark that may be used to label tuna products as dolphin safe in accordance with this Act.

(B) A tuna product that bears the dolphin safe mark developed under subparagraph (A) shall not bear any other label or mark that refers to dolphins, porpoises, or marine mammals.

(C) It is a violation of section 5 of the Federal Trade Commission Act (15 U.S.C. 45) to label a tuna product with any label or mark that refers to dolphins, porpoises, or marine mammals other than the mark developed under subparagraph (A) unless—

(i) no dolphins were killed or seriously injured in the sets or other gear deployments in which the tuna were caught;

(ii) the label is supported by a tracking and verification program which is comparable in effectiveness to the program established under subsection (f); and

(iii) the label complies with all applicable labeling, marketing, and advertising laws and regulations of the Federal Trade Commission, including any guidelines for environmental labeling.

(D) If the Secretary determines that the use of a label referred to in subparagraph (C) is substantially undermining the conservation goals of the International Dolphin Conservation Program, the Secretary shall report that determination to the United States Senate Committee on Commerce, Science, and Transportation and the United States House of Representatives Committees on Resources and on Commerce, along with recommendations to correct such problems.

(E) It is a violation of section 5 of the Federal Trade Commission Act (15 U.S.C. 45) willingly and knowingly to use a label referred to in subparagraph (C) in a campaign or effort to mislead or deceive consumers about the level of protection afforded dolphins under the International Dolphin Conservation Program.

[(e) ENFORCEMENT.—Any person who knowingly and willfully makes a statement or endorsement described in subsection (d)(2)(B) that is false is liable for a civil penalty of not to exceed \$100,000 assessed in an action brought in any appropriate district court of the United States on behalf of the Secretary.]

(e) *ADDITIONAL PROHIBITIONS AND ENFORCEMENT.—For additional prohibitions relating to this Act and enforcement of this Act,*

see section 606 of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826g).

(f) REGULATIONS.—The Secretary, in consultation with the Secretary of the Treasury, shall issue regulations to implement this Act, including regulations to establish a domestic tracking and verification program that provides for the effective tracking of tuna labeled under subsection (d). In the development of these regulations, the Secretary shall establish appropriate procedures for ensuring the confidentiality of proprietary information the submission of which is voluntary or mandatory. The regulations shall address each of the following items:

(1) The use of weight calculation for purposes of tracking tuna caught, landed, processed, and exported.

(2) Additional measures to enhance current observer coverage, including the establishment of criteria for training, and for improving monitoring and reporting capabilities and procedures.

(3) The designation of well location, procedures for sealing holds, procedures for monitoring and certifying both above and below deck, or through equally effective methods, the tracking and verification of tuna labeled under subsection (d).

(4) The reporting, receipt, and database storage of radio and facsimile transmittals from fishing vessels containing information related to the tracking and verification of tuna, and the definition of set.

(5) The shore-based verification and tracking throughout the fishing, transshipment, and canning process by means of Inter-American Tropical Tuna Commission trip records or otherwise.

(6) The use of periodic audits and spot checks for caught, landed, and processed tuna products labeled in accordance with subsection (d).

(7) The provision of timely access to data required under this subsection by the Secretary from harvesting nations to undertake the actions required in paragraph (6) of this paragraph. The Secretary may make such adjustments as may be appropriate to the regulations promulgated under this subsection to implement an international tracking and verification program that meets or exceeds the minimum requirements established by the Secretary under this subsection.

In the case of repeated and flagrant fishing operations in the regulatory area by the vessels of any country which seriously threaten the achievement of the objectives of the commission's recommendations, the Secretary of the Interior, with the concurrence of the Secretary of State, may, in his discretion, also prohibit the entry from such country of such other species of tuna, in any form, as may be under investigation by the commission and which were taken in the regulatory area. The aforesaid prohibitions shall continue until the Secretary of the Interior is satisfied that the condition warranting the prohibition no longer exists, except that all fish in any form of the species under regulation which were previously prohibited from entry shall continue to be prohibited from entry.】

The Honorable Bill Shuster
Chairman
Committee on Transportation and Infrastructure
2165 Rayburn House Office Building
Washington, DC 20515

Dear Mr. Chairman:

On April 30, 2015, the Committee on Natural Resources ordered favorably reported without amendment H.R. 774, the Illegal, Unreported, and Unregulated Fishing Enforcement Act of 2015, by unanimous consent. The bill was referred primarily to the Committee on Natural Resources, with an additional referral to the Committee on Transportation and Infrastructure.

I ask that you allow the Committee on Transportation and Infrastructure to be discharged from further consideration of the bill so that it may be scheduled by the Majority Leader. This discharge in no way affects your jurisdiction over the subject matter of the bill, and it will not serve as precedent for future referrals. I understand that our staffs have worked out some additional language that affects provisions in your jurisdiction for the Floor, and I pledge to incorporate this language when we get to that point in the process. In addition, should a conference on the bill be necessary, I would support having the Committee on Transportation and Infrastructure represented on the conference committee. Finally, I would be pleased to include this letter and any response in the bill report filed by the Committee on Natural Resources to memorialize our understanding.

Thank you for your consideration of my request, and for your continued strong cooperation between our committees.

Sincerely,

Rob Bishop

Dear Mr. Chairman:

Thank you for your letter regarding H.R. 774, the *Illegal, Unreported, and Unregulated Fishing Enforcement Act of 2015*, as ordered reported by the Committee on Natural Resources on April 30, 2015. I appreciate your inclusion of changes requested by the Committee on Transportation and Infrastructure as this bill moves forward.

I agree to allow the Committee on Transportation and Infrastructure to be discharged from consideration of H.R. 774 with the understanding that this discharge does not affect the Committee's jurisdiction over the subject matter of the bill, and does not serve as precedent for future referrals. In addition, I expect the negotiated text to be the text considered on the floor. Finally, as stated in your letter, should a conference on the bill be necessary, I fully expect the Committee on Transportation and Infrastructure to be represented on the conference committee.

Thank you for your assistance in this matter and for agreeing to include a copy of this letter in the bill report filed by the Committee on Natural Resources, as well as in the Congressional Record during floor consideration.

ADDITIONAL VIEWS

The United States demonstrates strong leadership in sustainable management of fisheries, both nationally and internationally. The National Oceanic and Atmospheric Administration (NOAA) recently reported that no federally-managed fisheries are subject to overfishing. However, that is not the case for many stocks managed by other nations, as well as those managed by several countries through regional fishery management organizations (RFMOs). Over seventy percent of major global marine fish stocks are fully exploited, overexploited, depleted, or recovering from depletion, driven in part by the persistence of illegal, unreported, and unregulated (IUU) fishing.

The umbrella term IUU fishing covers illegal fishing, which takes place when vessels operate in violation of the laws of a fishery, such as those under the jurisdiction of a coastal state or those regulated by RFMOs. It also covers unreported fishing, which is fishing that is not reported or is misreported when such reporting is required by the relevant national authority or RFMO. Finally, it covers unregulated fishing, which is fishing by vessels without nationality or vessels flying the flag of a country not party to the relevant RFMO.

While it is difficult to track IUU fishing, it is estimated to have a global value of \$10 to \$23.5 billion, representing between 11 and 26 million tons of fish. Not only does this kind of fishing harm marine ecosystems and deplete fish stocks around the world, it also causes significant economic harm to U.S. fishermen. For example, the \$700 million worth of king crab harvested illegally from Russian waters alone undercuts the prices Alaskan king crab fishermen get for their catch, hurting the bottom line of a fishery that has become a model for sustainable harvest. IUU fishing on highly migratory stocks like tuna leaves fewer fish in the water for U.S. fishermen who play by the rules, and frustrates our efforts to manage far-ranging stocks responsibly. If stocks fail to recover, additional restrictions may be placed on U.S. fishermen, forcing economic losses and undermining confidence in the fairness of the management system.

In addition to depressing job opportunities and income in the U.S. fishing industry, IUU fishing poses a threat to our national security. A 2011 report issued by the United Nations Office on Drugs and Crime documented the link between illegal fishing and transnational organized crime including human trafficking, drug smuggling, gun running, terrorism, and even slave labor.¹

Especially given that 91 percent of seafood consumed in the United States is imported, it is critical to ensure that the pur-

chases of unsuspecting Americans are not supporting these activities.

The 2006 Magnuson-Stevens Reauthorization Act (MSRA) contained provisions to amend the High Seas Driftnet Fishing Moratorium Protection Act (HSDFMPPA) designed to strengthen controls on IUU fishing on the high seas (i.e., areas outside of nations' EEZs), but these provisions did not address IUU fishing in many other ocean areas governed by RFMOs. H.R. 774 brings penalties for IUU fishing under a number of RFMOs up to Magnuson-Stevens Act standards, expands NOAA's authority to identify and take action against vessels and countries involved in IUU fishing, and increases cooperation with other countries to combat IUU fishing that negatively impacts U.S. fishermen and consumers.

H.R. 774 also includes language that would implement the Agreement on Port State Measures to Prevent, Deter, and Eliminate Illegal, Unreported, and Unregulated Fishing (PSMA). The United States negotiated and signed PSMA in 2009, and it will enter into force when 25 countries have ratified it. While the Senate ratified the PSMA in April 2014, in order for it to be effective in U.S. ports and for the Agreement to be considered ratified by the other parties, Congress must pass implementing legislation directing Federal agencies to carry out our obligations. Those obligations include requiring foreign vessels to provide notice of their intent to enter a U.S. port, denial of port entry or port services to foreign vessels engaged in IUU fishing, inspection of foreign vessels in U.S. ports to ensure compliance, and assisting other nations in implementing the Agreement. Implementing PSMA would support U.S. actions to deny port services to vessels engaged in IUU fishing, and would set an example for other countries to follow: if catch cannot be landed, it cannot be sold, and therefore has no value.

H.R. 774 has broad bipartisan support and represents a significant step toward addressing the global problem of IUU fishing. We understand that NOAA has requested additional enforcement authorities, and we encourage NOAA to report on any instances in which enhanced tools would have led to greater conservation gains or stopped criminal activity. We believe changes made by this bill will greatly improve the efficiency and effectiveness of ongoing efforts, and will further solidify the United States' position as a global leader in sustainable fisheries management and in fighting natural resources crime.
